Circassian Day at the European Parliament (EP), Brussels on 7th November 2011

The Federation of European Circassians has been presenting the Circassian culture and introducing the Circassians at the European Parliament on a regular basis for the last 6 years.

When we present ourselves on this platform, we need also to expose the problems we face. Therefore, we chose the topic **"Circassian Organizations in the Diaspora, their Problems and their Expectations from the European Parliament"** as the main theme at this year's event. Mr.Ismail Ertug, MP at the European Parliament representing the German SPD party and Ms Ska Keller MP of the Greens will be participating and supporting us again.

Many Circassian and non-Circassian NGO's will join the summit and shed light on the diaspora and its challenges today. We will have speakers from Germany, the Netherlands, Australia, Israel, Turkey, USA and from the Republic of Adygea

Please find attached the agenda of this year's Circassian summit at the European Parliament.

Best regards,

Admiral Daşdemir

President
Federation of European Circassians
